

PSQG Simple Fleece Tie Blanket Instructions

There are about 100,000 different tutorials on the internet. Feel free to be creative in your project.

- Trim off any selvage around the edges of your fleece
- Cut 2 equal size pieces of fleece
 - As we use donated pieces of fleece sizes will vary.
- Put the 2 pieces wrong sides together and line up the edges.
- Measure out a 4" x 4" square
- in each of the 4 corners and cut out the corner through both layers.
- Proceed to cut 4" in at 1" intervals on all four sides
 - I lay a tape measure across from end to end and use it as reference.
 - Your fringes don't need to be 1" exactly, just try to keep them the same size.
 - It is easier to cut through both pieces of fleece at the same time so they match each other.
- Starting on one side, tie knots using one fringe from each piece of fleece.
- Tie these knots on every other fringe around the entire blanket.
- Flip the blanket over and tie the remaining knots.
- No need to wash when you are complete!

Thank you for your generosity in spending your time on this project!
